## **EXPERTEAM-TRAIN WORKSHOP:** “Publication and transfer of knowledge and technologies to promote exchange between biotech companies”

**Venice, 9<sup>th</sup> of September 2019**

---

Venice, 9th of September 2019, at 3 pm at *Ca' Foscari Challenge School* – Vega Science and technology park, Via della Libertà 12, 30175, will held the event:

“Publication and transfer of knowledge and technologies to promote exchange between biotech companies”

Sharing and transferring resources between biotech companies are key factors in the professional involvement of people and in the interdisciplinary cooperation between research, education and business. This event aims at providing a platform to showcase the business expertise present in our region, share ideas and meet new potential partners.

By organizing this event, Experteam srl, partner of "TRAIN-Interreg Italy-Slovenia" project, offers the opportunity for several companies in the biotech sector to meet and share their activities in the biotechnological field. Companies coming from different regions of the Programme Area, including Veneto, Friuli Venezia Giulia and Slovenia, will share mutual knowledge with the final goal of developing novel project networks and transfer business expertise.

During the workshop, biotech companies will present their profile, work in progress and opportunities for technology transfer in the biotechnology field.

The presentation session will be followed by a discussion between researchers and representatives of each company.

The meeting is an open event and free.

Each participant will give a 20-minute-speech about business presentation and company activity, relevance of the research and funding for research in biotech companies and new biotech technologies interesting for companies.
